

LEVIATHAN INTERNATIONAL

Clarity within Chaos

CAPABILITIES STATEMENT

Leviathan International is a Service-Disabled Veteran-Owned Small Business that specializes in business intelligence that delivers cybersecurity compliance and cloud security for federal agencies. We combine RMF/ATO expertise with Cloud Engineering.

CORE COMPETENCIES

- Cloud Security Architecture
- Risk Management Framework (RMF) & Authority to Operate (ATO)
- DevSecOps Automation & CI/CD Security
- Cybersecurity Risk Quantification: Financial Impact Analysis & Return on Investment
- AI/ML Security & Responsible AI Frameworks

DIFFERENTIATORS

1. **Axiom Intelligence Platform** Trained Machine Learning Models that quantify cybersecurity risk from heat maps to dollars.
2. **Rapid ATO Acceleration** Demonstrated 40% reduction in Authority to Operate timelines through automated compliance validation and continuous security monitoring.
3. **GovCloud Specialization at Scale** We architect, secure, and maintain cloud environments where most consultants only advise.
4. **CFO-Language Risk Quantification** Transform cybersecurity from cost center to strategic asset. Our quantified risk models support budget justification and strategic planning in language executives understand.

PAST PERFORMANCE

Distinguished organizations our leadership team delivered Cybersecurity and Cloud services to:

- Department of Veterans Affairs
- Department of Defense
- United States Agency of International Development
- National Aeronautics and Space Administration
- Town of Cary, NC
- Sylvamo Corporation

COMPANY SNAPSHOT
