### LEADERSHIP BIO

#### Marshall Kregg

20+ years IT and Cybersecurity Leadership; RMF/ATO SME; AI/ML Data Governance

#### Will Hausman

15+ yrs engineering and architecture; DevSecOps; AI Framework Implementation and Adoption

### CORE COMPETENCIES

- Azure Government Cloud Security Architecture
- Risk Management Framework (RMF) & Authority to Operate (ATO)
- DevSecOps Automation & CI/CD Security
- Cybersecurity Risk Quantification : Financial Impact Analysis & Return on Investment
- AI/ML Security & Responsible AI Frameworks

### DIFFERENTIATORS

1. **DoD/Federal DNA Built-In** We understand federal procurement, security clearance workflows, and agency stakeholder dynamics—not just technology.
2. **Rapid ATO Acceleration** Demonstrated 40% reduction in Authority to Operate timelines through automated compliance validation and continuous security monitoring.
3. **Azure GovCloud Specialization at Scale** We architect, secure, and maintain cloud environments where most consultants only advise.
4. **CFO-Language Risk Quantification** Transform cybersecurity from cost center to strategic asset. Our quantified risk models support budget justification and strategic planning in language executives understand.
5. **Veteran-Led SDVOSB with Technical Depth** We don't subcontract the work—our leadership team delivers.
